TWO UNIVERSITY STUDENTS RECEIVE
SCHOLARSHIPS FROM ANACONDA COMPANY

MISSOULA--

Two students from the University of Montana have received \$250 each in scholarships from the Anaconda Company. Recipients of the awards are Clyde F. Brandt, Rudyard, and Gail K. Kuntz, Florence, originally of Oakville, Iowa.

The scholarships were given on the basis of the students' academic achievement and potential. The Anaconda Company specified that one scholarship should be awarded to a student nominee taking a major from the UM School of Business Administration.

The other scholarship could be awarded to a nominee from any department chosen by the UM Scholarship Committee. The committee, headed by Mrs. Sara Steensland, who is chairperson of the UM Department of Home Economics, chose a graduate student in the UM Environmental Studies program.

Brandt, 19, son of Mr. and Mrs. Robert Brandt, Rudyard, is a May 1974 graduate of Rudyard High School. He is a freshman majoring in accounting with a high grade-point average. He is one of seven children.

Kuntz, 26, is a graduate student in the Environmental Studies' two year graduate program at the University of Montana. Her area of interest is environmental journalism. She was an employe of the Montana Department of Natural Resources in Helena before coming to the University as staff coordinator and editor of the environmental impact statement on Colstrip Units 3 and 4. Kuntz received her bachelor of arts degree in English from Western Illinois University, Macomb.
